**PARTICULARS TO APPEAR ON THE IMMEDIATE PACKAGE**

**Syringe Carton**  
**Cardboard box of 1 x 28.5 g syringe**

**1. NAME OF THE VETERINARY MEDICINAL PRODUCT**

Pyratape P Horse Wormer  
40% w/w Oral Paste

**2. STATEMENT OF ACTIVE AND OTHER SUBSTANCES**

Pyratape P is a ready to administer oral paste for horses and other equines. Each 28.5g syringe contains 11.4g pyrantel embonate as active ingredient.

**3. PHARMACEUTICAL FORM**

Oral paste

**4. PACKAGE SIZE**

28.5 gram

**5. TARGET SPECIES**

Horses and ponies

**6. INDICATION(S)**

For the treatment and control of adult infections of large and small redworms, ascarids and pinworms found in the gastro-intestinal tract of horses and other equines. Pyratape P also treats and controls tapeworm.

**7. METHOD AND ROUTE(S) OF ADMINISTRATION**

One syringe per 600kg bodyweight as a single dose (which is equivalent to one syringe mark per 100kg bodyweight)

Increased dosing for treatment of Tapeworm infections

Double the routine dose rate and administer on a single occasion, i.e. Two syringes per 600kg bodyweight as a single dose (which is equivalent to two syringe marks per 100kg bodyweight)

To ensure administration of a correct dose, body weight should be determined as accurately as possible; accuracy of the dosing device should be checked. The use of a 'weigh band' is recommended. Administer the paste by squeezing from the syringe onto the back of the horse's tongue.

#### Practical dosage Recommendations

Weight	Type	Routine Treatment
Up to 100kg	Miniature ponies	Syringe mark 100kg
101 – 300kg	Donkey, Shetland and other small ponies, foals.	Syringe mark 300kg (1/2 syringe)
301 – 400kg	Dartmoor, New Forest, Welsh	Syringe mark 400kg
401 – 500kg	Light hunters, Arabs, etc.	Syringe mark 500kg
501 – 600kg	Thoroughbreds	Syringe mark 600kg (1 syringe)
601kg and over	Heavy hunters, draught horses	1 full syringe plus additional  100kg syringe marks for each extra 100kg bodyweight.

Inappropriate use of anthelmintics may increase resistance selection pressure and lead to reduced efficacy. The decision to use the product should be based on professional advice and take into account current best practice recommendations for parasite control.

#### **8. WITHDRAWAL PERIOD**

Not to be used in horses and ponies intended for human consumption.  
Treated horses may never be slaughtered for human consumption.  
The horse must have been declared as not intended for human consumption under national horse passport legislation.

#### **9. SPECIAL WARNING(S), IF NECESSARY**

##### CONTRA-INDICATIONS AND WARNINGS

Do not use in severely debilitated animals  
The product is safe to give to pregnant and lactating mares provided the recommendations are followed.

##### OPERATOR WARNINGS

Direct contact with the skin should be avoided; wash hands and any other parts of the body which come in contact with the product after use. Avoid handling the product if you know you are hypersensitive to pyrantel.

**10. EXPIRY DATE**

EXP:

**11. SPECIAL STORAGE CONDITIONS**

Do not store above 25 °C. Protect from direct sunlight.  
On occasions where only part of the paste is used, replace the cap and store as indicated.  
Keep container in the outer carton.

**12. SPECIFIC PRECAUTIONS FOR THE DISPOSAL OF UNUSED PRODUCTS OR WASTE MATERIALS, IF ANY**
