

PARTICULARS TO APPEAR ON THE OUTER PACKAGE - Box label no leaflet

1. NAME OF THE VETERINARY MEDICINAL PRODUCT

Johnson's Flea-Guard Waterproof Flea and Tick 15 % w/w Collar for Large Dogs

2. STATEMENT OF ACTIVE AND OTHER SUBSTANCES

Active ingredient

Diazinon	15	%
w/w		

This collar contains 6.15 g of Diazinon

3. PHARMACEUTICAL FORM

Collar.

4. PACKAGE SIZE

Standard size: 65 cm (26")

5. TARGET SPECIES

Dogs.

6. INDICATION(S)

Kills fleas and ticks for up to 5 months. Unaffected by water.

For the control of fleas and ticks on dogs over 3 onths of age for up to 5 months.

7. METHOD AND ROUTE(S) OF ADMINISTRATION

For external use only.

Remove the collar from blister and fasten around the dog's neck. When fitted to the growing dog, ensure the collar is loosened as the animal grows. In the fully-grown dog, a correct fitting will allow two fingers to be inserted between the collar and the neck. Any excess length of collar extending beyond the buckle should be cut and disposed of with the domestic refuse.

The collar does not need to be removed when the animal is being bathed as the insecticidal activity remains unaffected by water. Leave in place until the collar effective life is exhausted. Replace at 5 months if reinfestation is a risk.

8. WITHDRAWAL PERIOD

Not applicable.

9. SPECIAL WARNING(S), IF NECESSARY

DO NOT allow animals to chew the collar. DO NOT use any other insecticide while the collar is being worn, or within 7 days of removal. DO NOT use on puppies under 3 months of age or on nursing bitches. Remove collar immediately should any signs of skin irritation or adverse reaction occur. REMOVE COLLAR FROM DOG IMMEDIATELY SHOULD ANY SIGNS OF DROWSINESS, LISTLESSNESS, HYPERSALIVATION, TREMOR OR RESPIRATORY DIFFICULTIES DEVELOP SOON AFTER FIXING OF COLLAR.

General Precautions

Fleas from pets often infest the animal's basket, bedding and regular resting areas such as carpets and soft furnishings which should be treated with a suitable insecticide and vacuumed regularly. If you have several dogs, they must all be treated. Other animals in the same household should all be treated with an appropriate authorised product.

Ticks will detach from the host within 24-48 hours after infestation without having had a blood meal, as a rule. An attachment of single ticks after treatment cannot be excluded. For this reason, a transmission of infectious disease by ticks cannot be completely excluded if conditions are unfavourable.

USER WARNINGS: Do not remove collar from pack until ready to use. DO NOT ALLOW CHILDREN TO PLAY WITH THE COLLAR. Do not allow children to suck or chew the collar. Do not smoke, eat or drink while handling collar. Do not sleep with pets wearing collars. Dimpylate/Diazinon is an organophosphorus compound: DO NOT handle if under medical advice not to work with ANTICHOLINESTERASES. Avoid excessive handling of the collar. Cut off any excess collar with scissors and dispose of safely. If you feel unwell after handling the collar, seek medical advice. Wash hands thoroughly after handling the collar.

10. EXPIRY DATE

EXP:

11. SPECIAL STORAGE CONDITIONS

Do not remove the collar from the pack until ready-to-use.

Do not store above 25 °C.

Protect from direct sunlight.

12. SPECIFIC PRECAUTIONS FOR THE DISPOSAL OF UNUSED PRODUCTS OR WASTE MATERIALS, IF ANY

Any unused veterinary medicinal product or waste materials derived from such veterinary medicinal products should be disposed of in accordance with local requirements. EXTREMELY DANGEROUS to fish and aquatic life. Do not contaminate ponds, waterways or ditches with the collar or empty packaging.

13. THE WORDS “FOR ANIMAL TREATMENT ONLY” AND CONDITIONS OR RESTRICTIONS REGARDING SUPPLY AND USE IF APPLICABLE [*Distribution category*]

For animal treatment only.

AVM- GSL

14. THE WORDS “KEEP OUT OF THE SIGHT AND REACH OF CHILDREN”

Keep out of reach of children.

15. NAME AND ADDRESS OF THE MARKETING AUTHORISATION HOLDER

Virbac S.A.
