MEDICINAL PRODUCT**

Rotacur Emulsion for Injection for Cattle

Date Created: September 2024

MODULE 1

PRODUCT SUMMARY

Name, strength and pharmaceutical form	Rotacur Emulsion for Injection for Cattle
Applicant	Forte Healthcare Limited Cougar Lane, Naul, Co. Dublin, Rep. of Ireland
Active substance(s)	Bovine rotavirus Bovine coronavirus <i>E. coli</i>
ATC Vetcode	QI02AL01
Target species	Cattle (pregnant cows and heifers)
Indication for use	For the active immunisation of pregnant cows and heifers to raise antibodies against <i>E. coli</i> adhesion F5 (K 99) antigen, rotavirus and coronavirus. When calves are fed colostrum from vaccinated cows during the first week of life, these antibodies have been demonstrated to reduce the severity of diarrhoea caused by bovine rotavirus, bovine coronavirus and enteropathogenic <i>E. coli</i> F5 (K99) and to reduce the shedding of virus by calves infected with bovine rotavirus or bovine coronavirus. Onset of immunity: Passive immunity commences with colostrum feeding and is dependent on calves receiving sufficient colostrum after birth.

MODULE 2

The Summary of Product Characteristics (SPC) for this product is available on the Product Information Database of the Veterinary Medicines Directorate.

www.gov.uk/check-animal-medicine-licensed

MODULE 3

PUBLIC ASSESSMENT REPORT

Legal basis of original application	Informed consent application in accordance with Article < > of Directive 2001/82/EC as amended.
Date of conclusion of the procedure	24/06/2024

I. SCIENTIFIC OVERVIEW

The quality / safety / efficacy aspects of this product are identical to Bovigen Scour Emulsion for Injection for Cattle.

MODULE 4

POST- AUTHORISATION ASSESSMENTS

The SPC and package leaflet may be updated to include new information on the quality, safety and efficacy of the veterinary medicinal product. The current SPC is available on the Product Information Database of the Veterinary Medicines Directorate website.

www.gov.uk/check-animal-medicine-licensed

The post-authorisation assessment (PAA) contains information on significant changes which have been made after the original procedure which are important for the quality, safety or efficacy of the product.

The PAA for this product is available on the Product Information Database of the Veterinary Medicines Directorate website.
