MODULE 2

The Summary of Product Characteristics (SPC) for this product is available on the Veterinary Medicines Directorate website (www.vmd.defra.gov.uk)

VMD/L4/GAT/014/C 3/5

PUBLIC ASSESSMENT REPORT

Legal basis of original	Informed consent application in accordance with					
application	Article	13c	of	Directive	2001/82/EC	as
	amended.					

I. SCIENTIFIC OVERVIEW

The quality, safety and efficacy aspects of this product are identical to Droncit Tablets 50 mg. The initial application for Droncit Tablets 50 mg was assessed before there was a requirement to have a public assessment report; therefore no details in this section are available.

II. OVERALL CONCLUSION AND BENEFIT- RISK ASSESSMENT

The data submitted in the dossier demonstrated that when the product is used in accordance with the Summary of Product Characteristics, the benefit/risk profile of the product(s) is favourable.

VMD/L4/GAT/014/C 4/5

POST-AUTHORISATION ASSESSMENTS

The SPC and package leaflet may be updated to include new information on the quality, safety and efficacy of the veterinary medicinal product. The current SPC is available on the Product Information Database of the Veterinary Medicines Directorate website.

(www.gov.uk/check-animal-medicine-licensed)

The post-authorisation assessment (PAA) contains information on significant changes which have been made after the original procedure which are important for the quality, safety or efficacy of the product.

The PAA for this product is available on the Product Information Database of the Veterinary Medicines Directorate website.
