6. INDICATION(S)

[Optional. In case of space restriction and if the indication is clear from the name of the product, the indication should not be repeated]

7. CONTRAINDICATIONS

8. ADVERSE REACTIONS

9. TARGET SPECIES

10. DOSAGE FOR EACH SPECIES, ROUTE(S) AND METHOD OF ADMINISTRATION

DIRECTIONS FOR USE TEAT DIPPING

Dilute **Concentrate Teat Dip / Spray and Udder Wash Solution 2.15% w/v** 5,000 with three parts clean water to give 5,000 ppm available Iodine minimum. Fill teat cup about two-thirds full with the prepared solution and dip teats immediately after each cow is milked, making sure that the full length of the teat is immersed. Top up the cup with fresh solution as required. Empty and wash out cups after milking.

TEAT SPRAYING

Dilute 1 part **Concentrate Teat Dip / Spray and Udder Wash Solution 2.15% w/v** with 3 parts clean water.

immediately after milking, spray the entire surface of each teat of every cow with the prepared solution.

wash and dry udders and teats before milking.

UDDER WASHING & CLUSTER DIPPING

Dilute 1 to 500. To give 40ppm available Iodine minimum.

To help prevent cross infection, individual cloths or disposable paper towels are strongly recommended. Immerse clusters and agitate for at least half a minute. Rinse in clean water before use.

Alternative usage: Pre-milking disinfection (2,500 ppm available Iodine)

Dilute one part with seven parts clean water and mix well. Make sure udder and teats are clean and dry before disinfection.

Pre-milking dipping Fill teat dipping cup 2/3 full with the 1 to 7 solution. Dip teats of every cow making sure that the full length of the teat is immersed. Allow 15 seconds contact time, then using a single service paper towel, wipe and dry teat thoroughly, before continuing with normal milking routine. Top up with fresh solution as required. Empty and wash out cups after milking.

Pre-milking spraying Spray the entire surface of each teat of every cow with 1 to 7 solution. Allow 15 seconds contact time, then using a single service paper towel, wipe and dry teat thoroughly, before continuing with normal milking routine.

11. **ADVICE ON CORRECT ADMINISTRATION**

CONCENTRATE

The following safety phrases relate to the concentrated product only, and do not apply once the product is diluted to the working solution:

Risk of serious damage to eyes. Wear eye/face protection when preparing the dip or spray.
