7. CONTRAINDICATIONS

None.

8. ADVERSE REACTIONS

9. TARGET SPECIES

Cat

10. DOSAGE FOR EACH SPECIES, ROUTE(S) AND METHOD OF ADMINISTRATION

Adult Cats: For routine control of roundworms and roundworm eggs in adult cats give 1 x 1 sachet per 2.2 kg (5lbs) bodyweight. Follow the dosing chart below:

Cat's Weight	No. Of Sachets
Up to 2.2 kg (5 lbs)	1
2.3 – 4.4 kg (5.1-10 lbs)	2
4.5-6.6 kg (10.1-14.5 lbs)	3

For cats weighing over 6.6 kg give an extra 1 x 1g sachet per each additional 2.2 kg bodyweight.

Kittens (aged 3 to 6 months): For weaned kittens weighing 2.2kg-4.4kg (5-10lbs) give 1 x 1g sachet daily for 3 consecutive days.
Very small or unweaned kittens under 3 months of age should be treated with a suitable licensed product.

11. ADVICE ON CORRECT ADMINISTRATION

The product should be sprinkled on the cat's food. Weigh your cat carefully before calculating the dose. Sprinkle the required number of sachets onto about 1/3 of your cat's food ration and mix. Once this food has been consumed the remainder of the cat's food can be given. If you have more than one cat, treat each one separately and ensure that your other cats do not have access to the treated food.

12. WITHDRAWAL PERIOD

13. SPECIAL STORAGE PRECAUTIONS

Store in a dry place.

Keep sachets in outer carton.

14. SPECIAL WARNING(S)<User Warnings>

To safeguard your health and that of your cat, please read this carton carefully before you apply the product to your cat.
Avoid allowing granules to come into contact with your skin.
As a precaution always wash your hands after use.
Avoid inhaling the granule dust.

Do not administer if your cat is sick or recovering from an illness.
If signs of disease persist or appear, consult your veterinary surgeon.

For a treatment of pregnant cats seek the advice of a veterinary surgeon.
