9. TARGET SPECIES

Dairy cows

10. DOSAGE FOR EACH SPECIES, ROUTE(S) AND METHOD OF ADMINISTRATION

INSTRUCTIONS FOR USE

The product is a ready-to-use teat dip that is applied directly to the teats of dairy cattle by either semi-automatic hand held spray equipment or by dipping using the teat cup containing the product.

TEAT DIPPING

1. The product should be used directly from the container without dilution.

2. Fill a teat cup two thirds full with the product.

3. After each cow has been milked, dip each teat ensuring that the entire

surface of the teat comes into contact with the product.

4. Refill the teat cup as necessary.

5. Discard soiled teat solution.

6. Teat cups should be emptied after milking and washed thoroughly before re-use.

7. Wash and dry udders and teats before the next milking.

TEAT SPRAYING

1. The product should be used directly from the container without dilution.

2. Spray the full length of each teat after milking. Apply immediately after each milking.

3. Wash and dry udders and teats before each milking

UDDER WASHING

When the teats are dirty, clean them in a paper towel soaked in 25ml of product in 2.5 litres of clean water. When mastitis is in the herd use 25ml of product in 1.25 litres of clean water. Prepare a fresh solution daily. Use one disposable paper towel for each cow.

11. ADVICE ON CORRECT ADMINISTRATION

12. WITHDRAWAL PERIOD

Withdrawal periods: Meat - zero days / Milk - zero hours

13. SPECIAL STORAGE PRECAUTIONS

Keep away from food, drink and animal feedstuffs

For one milking only when transferred to teat dip cup.
