NATIONAL PROCEDURE

**PUBLICLY AVAILABLE ASSESSMENT REPORT FOR A VETERINARY
MEDICINAL PRODUCT**

Johnson's 4 Fleas Protector 10% Spot-on Solution for Cats and Kittens

MODULE 1

PRODUCT SUMMARY

Name, strength and pharmaceutical form	Johnson's 4 Fleas Protector 10% Spot-on Solution for Cats and Kittens
Applicant	Alfamed
Active substance(s)	Pyriproxyfen
ATC Vetcode	QP53AX23
Target species	Cats
Indication for use	Prevention of flea multiplication (adult and larval stages of <i>Ctenocephalides felis</i> sensitive to pyriproxyfen) in cats by inhibiting egg development for 3 months

MODULE 2

The Summary of Product Characteristics (SPC) for this product is available on the Veterinary Medicines Directorate website (www.vmd.defra.gov.uk)

MODULE 3

PUBLIC ASSESSMENT REPORT

Legal basis of original application	Informed Consent application in accordance with Article 13c of Directive 2001/82/EC as amended.
-------------------------------------	---

I. SCIENTIFIC OVERVIEW

The quality / safety / efficacy aspects of this product is/are identical to Cyclo 60 mg Spot-on Solution for Cats. The initial application for Cyclo 60 mg Spot-on Solution for Cats was assessed before there was a requirement to have a public assessment report, therefore no details in this section are available.

II. OVERALL CONCLUSION AND BENEFIT– RISK ASSESSMENT

The data submitted in the dossier demonstrate that when the product is used in accordance with the Summary of Product Characteristics, the benefit/risk profile for the target species is favourable and the quality and safety of the product for humans and the environment is acceptable.

MODULE 4

POST-AUTHORISATION ASSESSMENTS

The SPC and package leaflet may be updated to include new information on the quality, safety and efficacy of the veterinary medicinal product. The current SPC is available on the Product Information Database of the Veterinary Medicines Directorate website.

www.gov.uk/check-animal-medicine-licensed

The post-authorisation assessment (PAA) contains information on significant changes which have been made after the original procedure which are important for the quality, safety or efficacy of the product.

The PAA for this product is available on the Product Information Database of the Veterinary Medicines Directorate website.
