INTERNET RETAILERS

The Veterinary Medicines Directorate (VMD) issues Accredited Internet Retailer logos to legitimate UK-based on-line retailers that have systems in place at the time of accreditation to give professional advice when selling veterinary medicines and to ensure their correct storage as required by UK law.

It can be difficult to differentiate between an illegal website, such as those based outside the UK not subject to UK controls, and a legitimate on-line veterinary medicine retailer. To reduce the risk of buying a veterinary medicine that could harm your animal, please click on the logo to check your on-line supplier is accredited.
