ROUNDWORM TREATMENT FOR CATS & KITTENS OVER 2 WEEKS OF AGE, WITH MINIMUM BODYWEIGHT OF 0.6kg (1½lb)

|                            |                              |
|----------------------------|------------------------------|
| Less than 0.25kg (½lb)     | Consult a Veterinary Surgeon |
| 0.25 to 0.5 kg ( ½ - 1 lb) | Use a syrup formulation      |
| 0.6 to 1.2 kg (1½ - 2½ lb) | 1 tablet                     |
| 1.3 to 2.5 kg ( 3 - 5 lb)  | 2 tablets                    |
| 2.6 to 3.7 kg ( 6 - 8 lb)  | 3 tablets                    |
| 3.8 to 5.0 kg ( 9 -11 lb)  | 4 tablets                    |
| 5.1 to 6.3 kg (12 - 14 lb) | 5 tablets                    |
| 6.4 to 7.5 kg (15 - 17 lb) | 6 tablets                    |

Give the number of tablets as above immediately before a normal meal. Slip tablet on to back of tongue, hold mouth closed and gently stroke neck until swallowed. The tablets may be smeared with butter for easier administration. Repeat the same dose in 14 days time.

Do not repeat treatment if vomiting occurs shortly after dosing. Keep animals under observation for one hour after dosing to ensure that tablets are ingested.

Kittens should be treated for roundworms at 2 weeks of age and every 2 weeks until 12 weeks of age; thereafter they should be treated at 3 month intervals. Adult cats are also prone to roundworm infestation, in which case dose as above.

Pregnant females should be dosed at 3 weeks and 1 week before giving birth. Nursing females should be dosed 2 weeks after giving birth and every 2 weeks until weaning. It is advisable to treat the adult female at the same time as the kittens.

## **8. WITHDRAWAL PERIOD**

Not applicable

## **9. SPECIAL WARNING(S), IF NECESSARY**

Wash hands after handling tablets.

Accidental eye contact – rinse thoroughly with clean running water. If irritation persists, seek medical advice.

Accidental ingestion by humans – drink plenty of water and seek medical advice.

Very small animals should be treated by a veterinary surgeon. It is advisable to consult a veterinary surgeon before treating animals with a history of epilepsy or kidney disease.

## **10. EXPIRY DATE**
