

PARTICULARS TO APPEAR ON <THE OUTER PACKAGE> <AND> <THE IMMEDIATE PACKAGE>

{NATURE/TYPE}

1. NAME OF THE VETERINARY MEDICINAL PRODUCT

KENOCIDIN SPRAY AND DIP
Chlorhexidine digluconate 5mg/ml, Teat Dip / Teat Spray solution for cattle (dairy)

2. STATEMENT OF ACTIVE AND OTHER SUBSTANCES

Chlorhexidine digluconate: 5.00 mg/ml.(Equivalent to chlorhexidine, 2.815 mg/ml)
Brilliant Blue 85% (E133): 0.035 mg/ml
Glycerol: 60.00 mg/ml
Allantoin: 1.00 mg/ml

3. PHARMACEUTICAL FORM

Teat Dip / Teat Spray Solution
Blue Liquid Solution

4. PACKAGE SIZE

1L, 5L,10L, 20L, 25L, 60L, 200L. Not all pack sizes may be marketed.

5. TARGET SPECIES

Cattle (dairy).

6. INDICATION(S)

Teat disinfection as a part of a prevention strategy for mastitis in lactating dairy cows.
For the maintenance of good teat skin and teat end condition

7. METHOD AND ROUTE(S) OF ADMINISTRATION

Teat use.
The product is ready to use as a post-milking teat dip or spray, applied up to two times per day.
Use at least 5ml per cow per application.
Dip the teats immediately after milking each cow. Ensure that the teat is completely covered to three quarters of its length. Alternatively, spray the entire surface of each teat immediately after milking.

The dip cup or sprayer should be replenished as necessary.

If a common dip cup or sprayer is used for application, a fresh solution should always be used at each milking. The dip cup or sprayer should be emptied, cleaned and rinsed after each milking session or when the cup or sprayer becomes contaminated during milking. Do not pour the remaining solution from the dip cup back into the original container. Do not use the product for cleaning and/or sanitizing milking equipment.

8. WITHDRAWAL PERIOD

Meat & offal: zero days

Milk: zero hours

9. SPECIAL WARNING(S), IF NECESSARY

Ensure udder and teats are clean and dry before the next milking.

Can be used during pregnancy and lactation.

Chlorhexidine can be inactivated by anionic and nonionic surfactants (eg soaps, even natural) or inorganic anions, so do not mix with tap water, other chemicals, disinfectants and other products for the teat and udder care

This veterinary medicinal product is for teat use, significant absorption does not occur.

- **Special precautions for use in animals**

If signs of disease appear, or persist, consult a veterinary surgeon.

For external use only.

Use for the treatment of teats with cutaneous lesions may delay the wound healing process. It is recommended to discontinue the treatment until the lesions are healed.

The presence of organic matter (pus, blood, etc.) may limit the action of the disinfectant chlorhexidine.

If the temperature is below freezing, allow teats to air dry before letting cows outside

Allow product to dry before exposing the cows to wet (rainy), cold or windy conditions.

- **Operator Warnings**

Avoid contact with eyes. If splashed in the eye, rinse with clean running water and seek medical advice.

In case of accidental ingestion, drink large quantities of water and seek medical attention immediately.

Keep away from food and animal feed.

Wash hands after use.

When the product is used as a spray, avoid working in spray mist.

People with known hypersensitivity to chlorhexidine should avoid contact with the product.

- **Adverse reactions**

Change of active ingredient teat dip type can on very rare occasions cause skin irritation.

If you notice any serious effects or other effects not mentioned in this package label, please inform your veterinary surgeon.

- **Contraindications**

Do not use in cases of known hypersensitivity to chlorhexidine or any of the excipients.

10. EXPIRY DATE

EXP {month/year}

To be used within the first 6 months after opening.

Discard date: ____ / ____ / ____

11. SPECIAL STORAGE CONDITIONS

Keep the container tightly closed.

Protect from frost

If the veterinary medicinal product has frozen, thaw in a warm place and shake well before use
